Mr. Lance Compa
231 West Avenue
East Rochester, New York

Dear Lance:

Your basketball ability has come to our attention and we want to assure you the Duke Basketball Staff will be watching your academic and athletic progress throughout the coming year.

During your senior year in high school, may I suggest you investigate Duke with the assistance of your Guidance Director, Principal and local professional people. At the conclusion of your investigation, I am confident you will understand the status Duke enjoys in both the academic and athletic worlds.

Duke is unique because it provides an education second to none with the additional opportunity of participating in a basketball program of national prestige. Since your primary objective should be a quality education, you will be interested to know that the scholastic quality of our team members permits us to give a limited number of athletic awards and enhances your opportunity to play.

Enclosed is a questionnaire which I would appreciate your completing and returning along with an itinerary of your future basketball participation. After hearing from you, I will send further information on the Duke opportunities and environment.

The basketball staff at Duke wishes you continued success in the classroom and on the court.

Sincerely yours,

Charles J. Daly
Assistant Basketball Coach
